Subject: FOIAs to put on the weekly?

I am aware of a number of outstanding FOIA requests re fracking – but somewhat confused about which ones I should be listing on the weekly. Is it just anything new that has come in since the last weekly? In that case, I don't have anything. Or does the Front Office want a running list of all of the FOIA responses we are working on? I'm going to list the outstanding FOIAs I'm aware of below – and hoping you can help me figure out which of these (if any) should go on the weekly:

- 1) Energy Wire (Mike Soraghan) FOIA. Submitted 1/10/2013. Seeking documents related to extension of comment period on Pavillion report. ORD lead.
- 2) Greenpeace FOIA. Submitted 6/12/2012. Seeking documents related to meetings/ communications between EPA and oil and gas industry, White House and DoE re HF study. ORD lead.
- 3) Greenpeace FOIA. Submitted 8/16/2012. Seeking communications between Chesapeake and EPA re HF study. ORD lead.
- 4) Associated Press FOIA. Submitted 3/1/2013. Seeking communications between EPA and API and IPAA re the Pavillion study. (Likely) ORD lead. [Note: we mentioned this at the weekly 2 weeks ago soon after it was submitted]

I don't know if this is a complete list of FOIAs re fracking – I only know about these ones since I am currently working with ORD on them. Can you please let me know if you think any of this needs to go on the weekly? Thanks!

Pooja

Subject: the weekly for your input and review by Tuesday COB . . .

I will delete the FOIAs that were on there last week.
